December 29, 2020

Dear Ringgold Family,

I hope this correspondence finds you well and enjoying the holiday break. As previously discussed in our December 21 communication, each week the PA Department of Health announces the transmission rate. In order to comply with the PA Department of Health guidance we have been consistent in following, we must have a 'moderate' transmission rate for two consecutive weeks before returning to in-person instruction.

The transmission rate reported by the PA Department of Health this week is a 'substantial' transmission rate for Washington County making it impossible to obtain two weeks of a 'moderate' transmission rate by January 4 therefore, **we will be continuing remote instruction for the week of January 4, 2021.**

We will continue to closely monitor the Washington County transmission rate and communicate weekly the PA Department of Health transmission rate reported. We will be in contact the week of January 4, 2021 to communicate the next scheduled PA Department of Health transmission rate announcement and confirm if in fact there is potential to return to in-person instruction on January 11, 2021.

I want to again thank each of you for your continued support and take this time to wish you all the happiest of New Years. I look forward to seeing our students and staff in the new year!

Sincerely,

*Randall Skrinjorich*

Randall Skrinjorich
